

This was intentionally a lullaby using the traditional Slavey lulling sound '?aoo.....
?aoo.....still used when putting a baby to sleep in a swing in many of the Dene homes.
Mothers have always used this very effective method of putting their babies to sleep
by singing to them and not just in the swing but also when they carry them on their
backs or cradle them in their arms. The words and the melody are perfect - it will
be a real winner for many years to come. I can just feel it - its right.

VERSE:	Bebía bilí kék theda Memq tsinią zhéhbilí Gots'ę zhets'ę ejih	Baby is sitting in a swing His mother swings him softly And she sings to him
